additional Community Anchor institutions (6% complete)

Project Status Completed 50% or more

Total Federal Amount ARRA 41905468.04

Funds Received/ Invoiced

Number of Jobs 67.25

Description of Jobs Created The Total Number of Jobs Created or Retained includes the following positions:

1. The Massachusetts Broadband Institute under the Massachusetts Technology Collaborative jobs counted are comprised of various administrative and program positions. They are: Director, Deputy Director, Program Director, Outreach Manager, Procurement Leads, Executive Assistant, Geographic Information Systems Analysts, Geographic Information Systems Manager, Interns and Federal Compliance Manager.
2. The Massachusetts Technology Collaborative Vendor Jobs Created or Retained for Professional Services Consultants providing programmatic, construction management, project management, technical, design and engineering, make ready, construction, and auditing services to the Massachusetts Broadband Institute.
3. This grant does not have Sub Recipients at this time. Each position created and retained by the Massachusetts Technology Collaborative and its vendors is essential in carrying out the goals and objectives outlined in the grant award to build an open access high speed fiber optic network infrastructure. This infrastructure serves over 120 western and north central Massachusetts communities and provides the essential foundation for economic growth

and stability to this distressed region.

Total Federal Amount of ARRA Expenditure 45445444.00

Total Federal ARRA Infrastructure Expenditure 45445444.00

Infrastructure Purpose and Rationale The purpose of the project is to construct the MassBroadband 123 network, a robust, open access, middle mile fiber network covering over one-third of the state will connect 123 communities in western and north central Massachusetts and the 1,392 community anchor institutions (CAIs) that serve them. MassBroadband 123 is the transformative missing link to deliver comprehensive economic, educational, and public safety benefits to this region hard hit by the national shift from manufacturing to a knowledge-based economy.

The MassBroadband 123 solution comprehensively addresses the issues faced by the public safety community by creating a guaranteed-bandwidth public safety network that will interconnect the majority of municipal police, fire, and emergency management sites. This upgrade will make interoperability possible, significantly improving public safety responsiveness, coordination, and effectiveness. Additionally, the MassBroadband 123 network will dramatically change the economic development dynamic by bringing fiber within 3 miles of 99% of area businesses and directly connecting all the community colleges and most workforce development agencies. The project will bring broadband access to 11 NTIA defined economically distressed areas,

Grant	NT10BIX5570070	147368641	2013 / 3	No

and 69 communities designated by the state as Economic Target Areas, and will connect to 128 public housing sites to provide vulnerable residents with an important tool to find and compete for jobs.

The MassBroadband 123 network primarily contributes to the following ARRA purposes:

1. To preserve and create jobs and promote economic recovery.
2. To assist those most impacted by the recession.
3. To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.
